

## TPP Call 4/22/18

1. **Guest Speaker:** Philip Haney, author of the best-selling book “See Something Say Nothing” was the guest speaker on Sunday’s TPP call. Haney’s book exposes the US governments submission to Jihad. Mr. Haney studied Arabic culture and language while working as a scientist in the Middle East before becoming a founding member of Homeland Security in 2002 as a Customs and Boarder Protection agriculture officer. He was promoted to the Advanced Targeting Team (ATT) of the National Targeting Center. He won numerous awards and commendations from his superiors for meticulously compiling information and producing actionable reports that led to the identification of hundreds of terrorists. He specialized in Islamic theology and the strategy and tactics of the global Islamic movement. Haney retired in July 2015. He now and spends his time doing public speaking and educating about differences between the United States concept of sovereignty and the Islamic attempt to impose their definition of sovereignty in this country. Haney touched on the role of the Hillary Clinton’s State Department officials in shutting down his investigations into Islamist terrorism during his tenure with Homeland Security. During his tenure he was investigated multiple times by the Obama Administration because of the information he was entering into the ATT database about the Muslim Brotherhood based on allegations he was violating their privacy and civil liberties by implying they were part of a terrorist group. Finally, Haney strongly encourages everyone to become fluent in our Constitutional language, especially Article VI, clause 2 which in essence makes the implementation of any aspects of Sharia law illegal in this country. Contact Jenny Beth Martin if you are interested in contacting Philip Haney for a speaking engagement.
2. **Constitution Minute by Chris Wright.** Sorry folks but Chris spoke so fast and I don’t do shorthand. Maybe next week.
3. **Call to Action:** The TPP is looking for volunteers to help the senate campaigns of Patrick Morrissey of West Virginia and Kevin Nicolson of Wisconsin. Also encouraging TPP to get the work out on social media in getting Pompeo confirmed as Secretary of State and to encourage Jim Jordan to be the next Speaker of the House. Finally, the TPP are looking for volunteers to help students in over 200 schools across the country in organizing a 16-minute walk out on May 2<sup>nd</sup> in support of the 2<sup>nd</sup> Amendment.
4. **Washington Report by Bill Pascoe.** Bill speaks even faster than Chris...
  - On the budget, the House and Senate are reintroducing Penny plan bills;
  - On the Comey front he is embarking on his book tour while the newly released Comey memos have been released.
  - On the Pompeo front, Democrats continue to scheme to prevent a vote on the floor for the sole purpose of denying Trump what he wants.
